

HARROW INTERNATIONAL SCHOOL

Executive Proposal: Harrow AI Hub & Digital Governance Platform

Author: Jamie MacLeod (Head LS CCA)
Target: SLT & EdTech Committee
Academic Year: 2025/2026

Strategic Objective: Harrow staff already hold **Google Gemini Education** accounts. The **Harrow AI Hub** provides a whole-school command centre to discover, organise, and govern custom departmental AI assistants ("Gems") across Lower School, Upper School, and Administration—delivering tangible workload reduction with **£0.00 / \$0.00 additional AI token cost** and strict safeguarding compliance.

35+ Hours
Termly Admin Saved per Dept

90-Day
Automated Quality Review Cycle

£0.00 Token Cost
Utilises Existing Gemini Edu Licences

1. OPERATIONAL CHALLENGES & HUB SOLUTIONS

Current Challenge	Harrow AI Hub Solution	Operational Benefit
Siloed AI Tools: High-impact Gems created in one department remain unknown to other phases.	Whole-School Directory: Filterable catalogue categorised by Lower School, Upper School, and Administration.	Eliminates duplicate effort; shares proven prompts school-wide.
Policy & Safeguarding Drift: Prompts risk giving outdated advice when trip or safeguarding policies change.	Institutional 90-Day Governance: Automated review flags, owner verification logs, and audit trails.	Guarantees compliance with Harrow child protection & risk standards.
Ad-hoc Staff Requests: Teachers want automation but lack a formal avenue to propose new tools.	Staff Suggestion Pipeline: Integrated crowdsourcing channel with upvoting and development triage.	Direct teacher-led innovation aligned with SLT priorities.
Portal & Link Sprawl: Staff struggle to locate Power BI dashboards, SOCS, and Google Sheets.	Unified Digital Tools Hub: Centralises departmental operational links alongside AI Gems.	Single bookmarked launchpad for daily staff operations.

2. DEMONSTRATED IMPACT: LOWER SCHOOL CO-CURRICULAR PILOT

- ✓ **CCA Risk Assessment Advisor:** Cut drafting time for off-site and specialist activities from ~45 mins to < 10 mins, standardising risk vocabulary.
- ✓ **Parent Activity Communication Generator:** Produces concise, professional notices in Harrow brand tone in under 2 minutes.
- ✓ **Staff Duty & Balloting Logistics:** Streamlines staff allocation rotas and student activity balloting checks.

3. BUDGET, INFRASTRUCTURE & TIMELINE

Item	Cost	Technical Requirement
AI Inference / Tokens	£0.00 / \$0.00	Operates entirely within staff's existing @harrowschoo1.ac.th Gemini Education session.
Web Hosting & Database	£0.00 – Free	Ultra-lightweight static web deployment (Vercel / Harrow Google Cloud).
IT Setup Time	~30 Minutes	One-time Google OAuth SSO configuration + internal subdomain mapping.

4. RECOMMENDED IMMEDIATE NEXT STEPS

1. **SLT Endorsement:** Approve expansion of the Lower School pilot to Upper School academic departments.
2. **IT Single Sign-On:** Request IT Services to link Harrow Google Workspace login for automated staff profile mapping.
3. **Staff Briefing:** Deliver a 15-minute walkthrough during an upcoming departmental meeting or INSET session.
